Global DNS Risk Technical Operations Meeting

Monday, 2 February 2009 - Wednesday, 4 February 2009

Atlanta

Scientific Programme

Call For Participation

OARC is seeking technical and operational contributions from its members and others to be presented to the symposium audience. Participation in the Technical Operations Meeting is open to:

All DNS-OARC members

Anyone willing to present relevant material

Others by invitation only
Potential Topics

The following topics are within the scope of this meeting:

Case studies of attacks on DNS servers

Fast-flux domains

Techniques for quickly identifying attack/abuse conditions

Evidence of DNS cache poisoning

Case studies of DNSSEC deployments

Is overprovisioning the best way to survive an attack? What are the minimums and maximums?

If you would like to make a presentation during the Technical Operations day, please contact the OARC Admin before January 16, 2009
