OARC's Mission Statement

The Domain Name System Operations Analysis and Research Center (DNS-OARC) is a non-profit, membership organization that seeks to improve the security, stability, and understanding of the Internet's DNS infrastructure.

DNS-OARC's mission is to:

- *promote and conduct research with operational relevance through data collection and analysis*

- *offer useful services and tools*

- *build relationships among its community of members*

- *facilitate an environment where information can be shared responsibly*

- *enable knowledge transfer by organizing open workshops*

- *increase public awareness of the DNS's significance*
