Feedback from PC on Feedback

- Content - seeking to balance desire for:
 - more operational topics
 - some entry-level content
 - live demos
- Attempt is to balance geographic timezones
 - having OARC34 in AP timezone was logistically challenging, but successful in increasing participation from that region

Feedback from PC on Feedback

- Length of breaks:
 - 90 minute break found to be too long by some
 - this is mainly a logistical constraint for longer online events
 - crew needs food etc break, and time to re-setup everything for next session
